

Dear Office-Logic Administrator,

To help maintain the quality of our products and services to our customers, LAN-ACES, Inc. is now offering an annual Updates, Support, and Enhancement (USE) Agreement to our existing Office-Logic clients. This agreement ensures that our clients will receive the latest product updates and priority technical support, while effectively cutting costs.

The LAN-ACES Updates, Support, and Enhancement Agreement contains the following:

★ **Free Technical Support from LAN-ACES:**

Free Technical Support will be available for clients that have a current USE Agreement. Any new add-on licenses that are purchased will automatically be covered under the current USE Agreement, free of charge, for the remainder of that agreement. Support will be available through phone, e-mail, and our web site.

★ **Free updates to products:**

Free upgrades for all maintenance and version updates as they become available. Shipping and Handling charges will apply for delivery of new version updates. Maintenance updates will be available for download from our web site. A valid e-mail address or fax number will be required for update notifications.

★ **Cost Effective:**

All upgrades to Office-Logic (any version) to the latest version will require a USE Agreement. For Office-Logic sites that have less than 100 user licenses, the price is \$24.95 per Office-Logic license. For sites with 100 or more user licenses, the price is \$19.95 per Office-Logic license.

Clients that have a current USE Agreement will receive all maintenance and version updates for free.

This agreement acts as an annual insurance policy for your current Office-Logic environment, and ensures that your site will always have the latest software and technical support if needed.

LAN-ACES, Inc. offers a wide range of products to help improve office communications.
(Office-Logic not required)
